## **REPAIR OPERATIONS**

The AIBOXES are the ultimate EXPLORER CASES modular solution for the storage, transport and use of sets of spare parts, components and tools, making them the ideal companion for all kinds of MROs. The AIBOXES can be used as stand-alone packaging solutions or stored, carried, shipped and deployed in multi-units using one of the EXPLORER CASES readily available carriers.

### Available in 3 different heights:

Int. Dim.: 467x255xH30 mm 18.38x10.03xH1.18 in

H 30 mm

Int. Dim.: 467x255xH60 mm 18.38x10.03xH2.36 in

I H 60 mm

Int. Dim.: 467x255xH95 mm 18.38x10.03xH3.74 in

H 95 mm

- The AIBOXES are made by injection moulded copolymer PP and come with a translucid fully detachable lid.
- They can be stacked positively and can stand vertically.

### **INTELLI RESPOND\***

The «Intelli Respond» system is based on GT LINE's patented technology to embed the RFID and NFC chips into any one of our cases. The chips are embedded in the frontal part of the case, allowing a quick reading for both RFID and NFC technologies.

A specific APP, available for both Android and IOS has been developed and is available for download.

## **AVIATION SUPPORT**

The Patented
easy "LockUnlock" system
allows each
module to be
quickly stacked
and released
from each other.

- You can now complement your 5140 tool chest with additional storage capacity, with these two new modules: 5116 and 5131.
- They can be used independently as reliable tool-boxes for extra hand tools, power tools and large spare parts, or can be stacked together with the traditional 5140 tool chest.
